

CYCLONE 12

ALKALINE MULTI-PURPOSE CLEANING AGENT *concentrate*

Cyclone 12 is an effective alkaline agent for general cleaning, meant for use in hospitals, SPAs, nursing homes, childcare facilities, food industry facilities, hair and beauty salons, saunas, pool facilities and everywhere else where an efficacious cleaning agent is required.

The product is suitable for cleaning water-resistant surfaces.

PRODUCT PROPERTIES

- removes even the most resistant dirt
- cost-efficient

USAGE

Dilute 10-40 ml of Cyclone 12 in 10 litres of water. Surfaces to be cleaned are processed with the working solution, which should be allowed to take effect for a few minutes in the case of resistant dirt, after which the surface is rubbed with a brush. For effective results, use water with temperature of +20...+50°C. Dilute 10-20ml of concentrate in 10 litres of water for cleaning waxed floors.

STORAGE

See the best before date on the package Store at room temperature, keep away from direct sunlight and avoid freezing to assure the quality of the product.

UTILIZATION

Product is ecologically safe, all active ingredients are biodegradable in flush water. For recycling, rinse package with water.
