

PROFESSIONAL GLASS CLEANER

GLASS AND SURFACE CLEANER

Ready-to-use solution

A highly effective ready-to-use solution for cleaning glass surfaces and mirrors, high-gloss furniture, kitchen surfaces (including glossy cabinets), stone surfaces, as well as vehicle windows and other smooth, shiny surfaces. Suitable for use in both professional environments and household settings. Thanks to its optimized formulation, it quickly removes fingerprints, dust, dirt, nicotine, and other surface residues. Ensures a clear, shiny, and streak-free result without the need for additional polishing. Also suitable for use as a car glass cleaner during the summer season.

PRODUCT PROPERTIES

- Fast and effective cleaning
- Streak-free result
- No polishing required
- Rapid evaporation
- Free from fragrances and colorants
- Suitable for frequent use
- Leaves surfaces clear and shiny

DIRECTIONS FOR USE

Spray the product directly onto the surface to be cleaned or onto a cleaning cloth. Wipe with a clean, dry microfiber cloth until a clear and streak-free result is achieved. Repeat if necessary. For heavy soiling, allow the product to act for 5–10 seconds, then wipe clean. The product works quickly and, due to rapid evaporation, no additional polishing is required. For best results, use a clean, dry or slightly damp microfiber cloth.

STORAGE

Store at room temperature. Protect from direct sunlight.

DISPOSAL

The product is environmentally safe; all active ingredients are biodegradable in wastewater. Plastic packaging materials are recyclable. For disposal, rinse the plastic packaging with water and separate the bottle and cap. The spray unit, including its metal components, can be disposed of with packaging waste. Transport cartons should be disposed of in paper recycling. Compatibility between the product and packaging is ensured.

COMPOSITION

<5% anionic surfactants, contains alcohols (ethanol, isopropanol), glycol ether

PACKAGING: 1 L spray bottle, 5 L canister
